For Pro Tools v5.1.x/5.2 TDM & Pro Tools LE v5.1.x/5.2.1

D-Verb 1.8.1 Mac & Windows installers are available from the Support/Downloads section of the Digidesign website: www.digidesign.com/download

What Pro Tools Systems Does D-Verb 1.8.1 Work With?

D-Verb 1.8.1 works with the following Pro Tools Systems:

- Pro Tools TDM version 5.1 — Mac
- Pro Tools TDM version 5.1.1 — Mac & Win 2000
- Pro Tools TDM version 5.1.3 — Mac
- Pro Tools TDM version 5.2 — Mac
- Pro Tools LE version 5.1 — Mac & Win 98/Me
- Pro Tools LE version 5.1. 1 — Mac & Win 98/Me
- Pro Tools LE version 5.2.1 (Mac) for Digi 001, ToolBox, ToolBox XP, and Audiomedia III LE systems

Please Note: Mbox users should continue to use the D-Verb plug-ins installed by your Mbox Pro Tools LE installation from your Mbox installation CD

Who Should Use D-Verb 1.8.1?

This update should be used only by:

- Any users of the above Pro Tools systems that are having problems authorizing their D-Verb TDM, RTAS, or AudioSuite D-Verb plug-ins

Who Should Not Use D-Verb 1.8.1?

These D-Verb 1.8.1 plug-ins will not work with any versions of Pro Tools older than Pro Tools 5.1

Including:

- Pro Tools 5.0.1 and older
- Pro Tools FREE (IMPORTANT: If you have purchased D-Verb RTAS from the online DigiStore at store.digidesign.com this installer will replace D-Verb RTAS and will not work with Pro Tools FREE)

These D-Verb 1.8.1 plug-ins will not work with Pro Tools 5.3 and higher. Please use the versions included with your Pro Tools 5.3 and higher installer.

Installing D-Verb 1.8.1

The Mac and Windows downloads each include this document and a complete installer. To install:
1. Quit Pro Tools and any other open applications
2. Double-click on the application named "Install D-Verb" (Mac) or "D-Verb Setup.exe" (Windows)
3. The installer will place the following files in your DAE/Plug-Ins folder:
4. D-Verb
5. D-Verb A/S
6. The D-Verb plug-ins will now be available the next time that you use Pro Tools

Please Note: The installer will remove any previously installed versions of D-Verb on Windows systems, and will move previously installed versions of D-Verb to the "Obsoleted Digidesign Software" folder on Macintosh systems.
